Floristry Workshops!

Sweet Floral is now offering interactive Floristry Workshops, where students can create their own floristry masterpiece! We provide all the flowers and tools required, all students need is creative spirit!

Sweet Floral's workshops are a fantastic way to explore a new skill, incorporating biology and artistry while in the class room environment and are a fantastic extracurricular parent/child activity.

Workshops can be held at your school or at our Fremantle showroom. We suggest workshops are suitable for year groups 7 through to 12.
